Instructions to follow for your delivery

Given the current COVID-19 (Coronavirus) pandemic, you **must strictly** adhere to the following instructions:

1. Respect social distancing

We will drop off your order on your doorstep, so you won't have to approach the person who comes to deliver. There is also no need to leave a tip.

2. Unpack your order after receipt

The virus can survive on cardboard and plastic surfaces for several days. Packaging is therefore a high risk route of transmission of the virus. We therefore ask you to **unpack your order and transfer the contents to plates**.

3. Dispose of the packaging

Once your order is unpacked, be sure to **dispose of the packaging in a closed bin** to avoid inadvertently touching it later.

4. Wash your hands!

Once you have unpacked your order and discarded the packaging, **wash your hands!**
